

Daniel Ginzburg

Director of Aftermarket Sales

Daniel (Dan) Ginzburg is an expert in all things filter-related, from dust collector filters to HVAC filters. He heads the Aftermarket Sales department for RoboVent, helping customers find the right filters and other aftermarket consumables for their needs and applications.

Background

Dan started with RoboVent in July of 2020 as a Filter and Aftermarket Account Manager and took on his present role in July of 2021. Prior to joining RoboVent, he was an Account Manager for Grand Rapids Metrology. He has a passion for helping manufacturing customers find filtration solutions that make an impact on the lives of workers.

Areas of Expertise

- Filters
- Aftermarket Dust Collector Consumables

Education

Dan earned his B.S. in Genome Sciences and Genomics from Michigan State University.

Get to Know Daniel

Dan is a Michigan State football fan and has inherited a love of travel from his parents, who work in the travel industry. He also is a technology enthusiast, especially for Apple products. He is active in a variety of volunteer opportunities in his local community and in Michigan State-related philanthropic causes.

“My focus is on growing RoboVent’s ability to be an all-in-one filter provider. I am working to make sure our customers are satisfied and helping them reduce downtime and promote a clean working environment.”
