

Ryan McWilliams Director of Operations

Ryan McWilliams is an experienced project manager who is always driven to improve. He has been involved in all aspects of RoboVent equipment installation and project management. He now leads a team of project managers to ensure that all installation projects are completed safely and professionally and stay on time and on budget.

Background

Jeff has been with RoboVent since 2015, when he started with the company as an installer. He joined RoboVent after an eight-year career in the military, during which he served as a Squad Leader for the 3rd Ranger Battalion of the U.S. Army. During his military career, he was responsible for the collective training and performance of his squad. He brings those leadership and management skills to the RoboVent project management and installation teams.

Areas of Expertise

- Project Management

Education

Ryan holds a Bachelor's degree in Business Administration, Project Management and Operations from Southern New Hampshire University.

Get to Know Ryan

Ryan and his wife are the proud parents of twins, a boy and a girl. His wife is a nurse and front-line healthcare worker. Ryan enjoys the outdoors and spending quiet time in nature. He also loves playing ice hockey and is now teaching his children to skate and play on their pond in the winter.

”

“I am always looking for ways to improve because continuous improvement is needed to ensure you do not get passed up by your competition. It is my job to ensure we do not become complacent and continue to be the best industrial ventilation project management team in the market!”
