

## Lindy Lewis

EHS & Process Improvement Manager

Lindy Lewis is an experienced project management and environmental health and safety (EHS) professional with 20+ years of industry experience. In his role at RoboVent, he is focused on driving a culture of workforce safety through effective communication and training on proper safety protocols. He also works to streamline and optimize current processes.

### Background

Lindy joined RoboVent as a Project Manager in 2019. Prior to that, he worked in a number of project management roles in industry and manufacturing for companies, including Cummins Power South and Caterpillar.

### Areas of Expertise

- Project Management
- Environmental Health and Safety (EHS)

### Education

Lindy earned his Bachelor of Science in Project Management from the University of Phoenix. He also holds numerous Occupational Safety & Health Administration (OSHA) and National Fire Prevention Association (NFPA) certifications.

### Get to Know Lindy

When he's not working on EHS projects, Lindy enjoys boating, smoking meats and creating with his 3D printer. Friends and family know him as determined, passionate and dedicated. He and his wife, Sara, have four children: two girls and two boys. He is an active volunteer at his children's school.

*"I strive to lead by example, demonstrating a commitment to safety, health and environmental excellence."*
