

# ProCube II Portable Weld Fume Extractor

## Powerful Hi-Vac Filtration in a Highly Portable Package

High-vacuum dust and fume extraction has never been so versatile! ProCube II puts hi-vac weld fume collection and air filtration into a small, portable package that goes wherever you need it.

**Powerful:** 4 HP motor easily supports up to two weld fume extraction guns or a single light-duty robot with tip extraction

**Portable:** Four sturdy casters (2 with 360° maneuverability) make it easy for a single welder to move

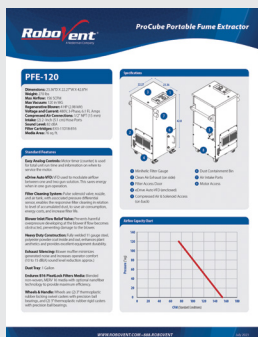

**Easy:** Plug-and-play operation and minimal maintenance

**Quiet:** Noise-reducing features for operator comfort

**Safe:** Built-in spark protection and inlet relief for superior safety

## ProCube II is perfect for:

- Manual welding (up to two fume extraction welding guns)
- Light-production robotic welding (with FlexTrac™ robotic extraction tip)

## Specs:

- 4HP delivers 156 CFM of airflow
- 23.36"D X 22.27"W X 42.8"H
- 270 lbs (95kg)
- 82 dB(A)

### Easy to use. Built to last.

**4 HP VFD Motor:** Delivers 156 CFM of airflow for maximum dust and fume extraction, with variable frequency drive (VFD) for energy savings (adjustable for one or two fume guns).

**Heavy-duty Construction:** Fully-welded 11-gauge steel construction, powder coated inside and out.

**Dashboard:** An easy-to-use, user-friendly dashboard shows performance and filter loading at a glance.

**Filter Cleaning System:** Compressed air pulsing to minimize maintenance and extend filter life.

**Spark Arrestor:** Built-in impact spark arrestance system for superior fire safety.

**Blower Inlet Relief Valve:** Protects from harmful overpressure if airflow becomes obstructed.

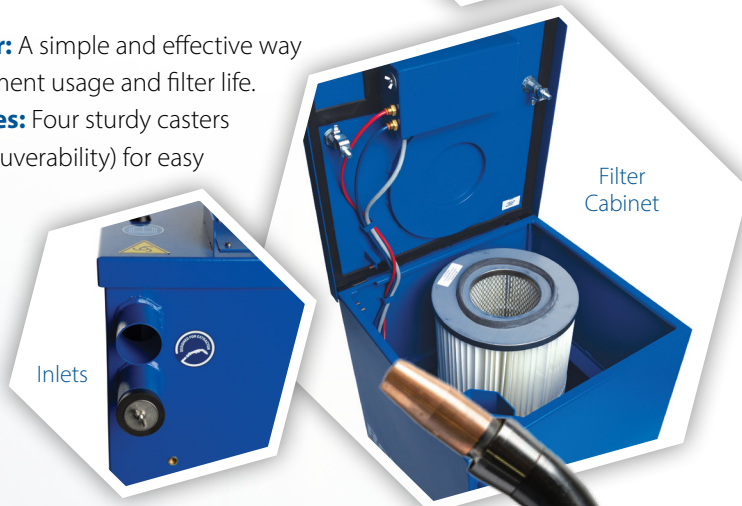

**Endurex B16 Filter:** Polyester MERV 16 media with ePTFE technology for maximum efficiency. Optional nanofiber MERV 15 media available.

**Exhaust Silencer:** Reduces generated noise by a further 10-15 decibels for improved operator comfort.

**Dust Tray:** Easily accessible metal tray for safe containment and fast and hassle-free dust disposal.

**Hours Run Meter:** A simple and effective way to monitor equipment usage and filter life.

**Casters & Handles:** Four sturdy casters (2 with 360° maneuverability) for easy handling.

### ProCube II & MIG Guns: The Perfect Pairing

For manual MIG/MAG welding, pair ProCube II with a **MIG fume extraction gun**. The fume gun builds maximum fume extraction power right into the welding torch, so fume control is always exactly where you need it. And with ProCube II's portability, hi-vac extraction can travel wherever it is needed. Perfect for large weldments and applications requiring high welder mobility.
